

Jewish Choices, Jewish Voices

EDITED BY ELLIOT N. DORFF AND LOUIS E. NEWMAN

This new JPS ethics series deals with some of the most critical moral issues of our time

Each volume presents traditional and contemporary sources on its topic, along with hypothetical cases and study questions to provoke discussion. Supplementing these are brief essays written by a diverse group of people — political figures and journalists, business professionals, scholars and artists, traditional believers and iconoclasts.

Intended to promote dialogue, challenge assumptions, and reflect the reality of Jewish life today, *Jewish Choices, Jewish Voices* is for anyone who struggles to lead an ethical life and wonders about the range of informed Jewish responses to controversial questions.
